## GREETING

---

We thank our customers for their patronage in the past, and hope for a continuance of their orders. We also thank them for recommending our plants to others. Many of our orders come from people who have been advised by pleased customers to send to us.

We would appreciate the placing of orders as early as possible, as it will help us, and at the same time insure the customer of better service.

Our farm is situated in Glencove, three miles from Rockland, on the electric car line.

Our telephone is listed as Lufkin, Pleasant View Farm, on the Rockland exchange.

Be sure to write your name and address plainly, and clearly say how your plants should be sent.

We endeavor to have all plants true to name, but will not be responsible for more than the first cost of the plants. Stock will be dug and shipped as promptly as possible. If for any reason your order cannot be filled, any money you have advanced for same will be returned.

Spring is the best time to set plants, but good results can be had from fall planting.

The strawberry plants we sell are runners from strong mother plants that were not allowed to fruit.
